ELCON / ELECTRIC RADIANT HEATERS

Elcon ARH / R / RW

Long-wave / 2-4 kW / IP4X / Wall / ceiling

ELCON RADIANT heaters, unlike other electric heaters, feature Long Wave electric heating technology. These heater models can be used both indoors and outdoors thanks to their environmentally friendly technology.

Design & operation

- Indoor and Semi-Outdoor use
- Space heater
- Effective heating angle, stylish design
- High-efficiency custom-designed reflector
- Corrosion-resistant Anodized aluminum body
- Stainless Steel - Nickel alloy special series heating elements
- Efficient and eco-friendly energy consumption
- Long-wave heating technology
- Decorative heating for homes and offices
- Special alloy aluminum body design
- Parabolic body for maximum efficiency and a wide heating angle
- Long-lasting, healthy heating with a stainless steel element
- High-temperature resistance with special Anodized coating
- Adjustable 4-level temperature control (40%-60%-80%-100%)
- Thermostatic temperature setting (adjustable between 16-30°C)
- Timer setting (auto-off in 15-30-60-90 min.)
- IP4X protection
- Angle-adjustable Ceiling + Wall Bracket
- Remote-controlled models
- Compatible with smart home technologies via 4 WR Remote Control
- 2000, 3000, and 4000W power options
- 4-level heat control
- Thermostat temperature setting
- Timer with auto-off function

Features vary by configuration. Refer to the comparison table for the selected model.

Configuration specifications

Specification values reproduced from the Elcon manufacturer catalogue.

Specification / Model	ARH-20	ARH-30	ARH-40	ARH-20R	ARH-30R
Dimensions (mm)	1030x180x60	1530x180x60	2030x180x60	1130x180x60	1630x180x60
Power Source	230V AC	230V AC	230V AC	230V AC	230V AC
Power (Watt)	2000	3000	4000	2000	3000
Control	ON/OFF	ON/OFF	ON/OFF	Remote	Remote
Heating Area	14 m²	20 m²	28 m²	16 m²	28 m²

Cable	3 x 2.5 mm	3 x 1.5 mm	3 x 2.5 mm	3 x 2.5 mm

Heating technology

Long-wave radiant heating element

The ARH series uses stainless steel-nickel alloy heating elements and long-wave heating technology. The anodized aluminum panel provides a discreet heating format for homes and offices. This is a metal heating element rather than a quartz infrared lamp.
